2 pairs of parallel sides							
Both pr. opp sides \cong							
Diagonals bisect each other							
Each diagonal cuts into 2 \cong triangles							
Both pr opp angles \cong							
All 4 angles \cong							
All 4 sides \cong							
Diagonals perpendicular							
Diagonals \cong							
Exactly one pair of sides parallel							
2 pairs of \cong sides; opp sides not \cong							
Diagonals perpendicular and \cong							
Each diagonal bisects 2 angles							
consecutive angles supplementary							
Exactly 1 diag. bisects the other diag.							
Exactly 1 pr. opp angles \cong							
2 pr angles \cong ; opp angles not \cong							
Exactly 1 diag bisects 2 angles							
Exactly 1 diag forms 2 \cong triangles							
Regular							
Exactly 1 pr. sides \cong
